Friday mornings in main town Oliva there is a local street market which is very popular. There is also a lot of history in the town and the traditional fiestas are always worth a visit to watch.

Oliva marina is a relaxing place which holds the smaller boats and yachts and the beach alongside is quite a hidden gem with views towards Gandia. A good place for snorkelling and kayaking.

The coastline is quite special with golden sand and blue flag beaches.

Oliva Nova has a beautiful golf course, driving range and you can get lessons.

Equestrian centre holding international competitions or if you prefer the normal ride then go for a hack down the beach or through the Marjel national park.
